Professional Summary

Full-Stack Developer with strong expertise in **object-oriented** software design, skilled in **Java** and JavaScript, specializing in building scalable, modular, and maintainable web applications. Passionate about building scalable, efficient, and user-centric solutions with a strong focus on performance optimization.

Skills

- **Programming Languages:** Java(Object-Oriented Design), JavaScript, HTML, CSS
- **Frameworks/Libraries:** React.js, Bootstrap, Express.js, Node.js
- **Tools & Technologies:** PostgreSQL, Git, Version Control System, Grid, Flexbox

Education

VIT Bhopal University, B.Tech in Computer Science Engineering Science Oct 2022 – May 2026
Courses: Object-Oriented Programming in Java, Database Management System, Operating System

- CGPA: 8.2/10

Projects

TravelUs – Group Travel Management Platform

(React, TailwindCSS, Redux Toolkit, Firebase) (backend by teammate)

- Developed the complete frontend of a collaborative travel coordination platform supporting group creation, real-time itinerary sharing, group chatting, document storage, and efficient group expense management
- Built responsive, accessible UI with TailwindCSS and managed application state using Redux Toolkit
- Connected the frontend to Spring Boot backend with secure JWT-based authentication and data flow

Keeper – Notes App Inspired by Google Keep *(React, Vite, CSS)*

- Created a fast, minimalist note-taking SPA using React and Vite with local state for managing note data
- Enabled users to add, view, edit and delete notes with smooth, real-time UI interactions
- Designed a clean, responsive layout using custom CSS inspired by Google Keep's card-style interface

Nike Landing Page Clone *(React, TailwindCSS, JavaScript)*

- Recreated Nike's official landing page with pixel-perfect UI using React and TailwindCSS
- Built fully responsive layouts with smooth transitions, hover effects, and optimized styling

Experience

Full Stack Developer Intern — DC Infotech, Mumbai (Dec 2024 - Mar 2025)

- Developed organization's internal web portals for feedback management and employee/admin operations using JavaScript, Node.js, React.js, and PostgreSQL and other UI framework like Tailwind.CSS.
- Built REST APIs, responsive UIs, and secure authentication flows following Agile practices.

Miscellaneous

Languages: English, Hindi, Gujarati

Attendee: c0c0n 2023 – Cybersecurity Event by Kerala Police

Event Lead: Gujarati Club, VIT Bhopal
